Pour a warm drink into Thermokruzhkus to make the artwork appear.

Best seller

Ridibundus smiley set

This six-piece set of emoticons that are actually pillows is good for all children — from one to one hundred.

Scout helicopter

Scout is a light experimental helicopter created by Horizont design bureau famous for building aircraft with unique flying qualities. Helicopter exterior, interior and air navigation display interface, all sharing the idea of simple and accessible flight, were created at the studio.

The small, comfortable, maneuverable, easy to control aircraft with low fuel requirements is designed to provide unprecedented opportunities for travel opening the world of flying even to those who previously could not even dream of the sky.

More than 20 combinations of exterior and interior color schemes are available. The color palette is both aesthetic and technically practical.

GADGETS

Verbarius digital clock

Verbarius is the first clock in the world that tells time the way humans do. It's not just a fashionable device — it can help you learn to spell numerals and tell time in foreign languages.

Additional languages:
Belarusian
Dutch
Esperanto
Estonian
Finnish
German (Bern)
Hungarian
Italian
Klingon
Lettish
Portuguese
Portuguese (Portugal)
Slovenian
Spanish
Swedish
Tatar
Turkish
Ukrainian
Welsh

It has five preloaded languages:

English

Deutsch

Español

Français

Русский

Verbarius digital clock

Verbarius spells time differently every minute. It's either *forty-five minutes past four*, or *fifteen minutes to five*, or *four forty-five*, or *a quarter to five*. It has five preloaded languages, and you can easily upload additional languages of your choice from your computer.

Verbarius requires a 110/220 V main power supply source. In case of power failure the clock has a backup battery.

Optimus Popularis keyboard

Art. Lebedev Studio

Optimus Popularis is a compact keyboard with each key displaying any image and being assigned any function.

Optimus Popularis is engineered for any layout, language or symbols: Cyrillic, Ancient Greek, Georgian, Arabic, music notes, numerals, codes, math functions, images, special symbols, and so on to infinity. It is an indispensable tool when it comes to high performance in any creative field, appreciated by designers, type-setters, traders, musicians, photographers and others.

The upper portion of the keyboard — between the numeral keys and the Function keys — is reserved to display a custom range of the most important information.

Rozetkus-5 Warningus power socket

Rozetkus power strips and sockets help to reduce cord clutter and make your home brighter, tidier and safer. This one is both a warning and a fun addition to any interior.

Rozetkus-4 power socket

The wall-mounted Rozetkus-4 installs just like a regular electrical outlet. Nine sockets accommodate up to four 7/16 CEE Europlugs. Reduced number of electrical outlets instantly gives a powerful recharge to a room's look.

www.artlebedev.com/everything/rozetkus/4

Rozetkus-5 power socket

Rozetkus-5 Warningus — a great example of form merging into function — is a wall socket designed after the classic electric shock warning sign. Warningus has a plastic body and installs as any other power socket at home or in the office.

Podstavkus desktop organizer

Podstavkus is indispensable for keeping stationery and small accessories in perfect order.

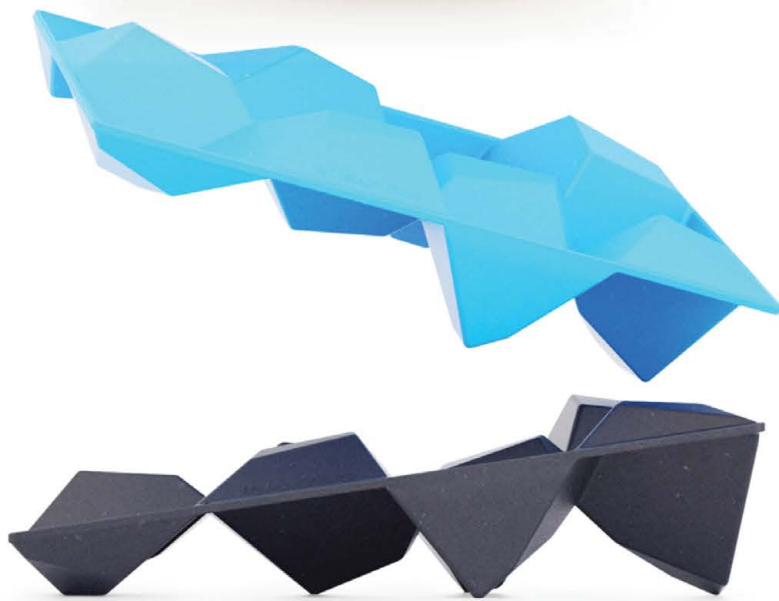

The shape of Podstavkus reminds both of a crumpled sheet of paper and a mountain range. Its complex terrain provides enough ravines of varied shape and depth to sort and store various accessories within easy reach.

Material: pressed bamboo

Dimensions:

24,3 × 12,6 × 6,5 cm (9,5" × 4,7" × 2,3")

Dispensum tape dispenser

Dispensum is a tape dispenser designed with the elegance of simplicity. Made from a single bent and burnished metal sheet, it has sockets for inserting a roll of tape and a sharpened edge for cutting it. Dispensum is nicely heavy with an addition of rubber bottom to avoid sliding and can be wall-mounted using two screws.

Rozetkus-6 Zaryadkus USB wall outlet

Rozetkus-6 is a wall outlet with four USB ports. It connects to your home or office electrical network, allowing you to charge phones, tablets and other gadgets directly from a wall socket. You can equip it with an optional fold-away tray which easily snaps on via a run-around frame.

www.artlebedev.com/everything/rozetkus/6

Rozetkus-8 power strip

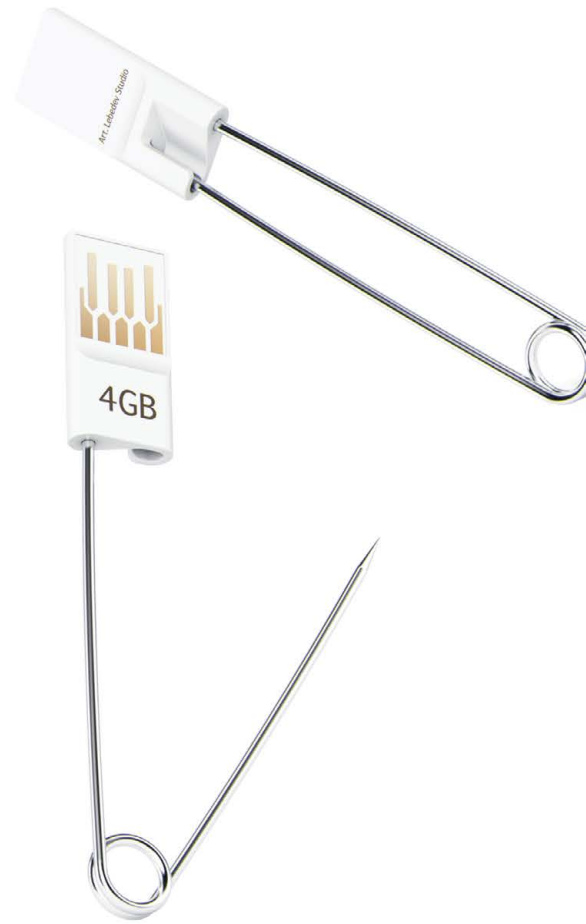

Rozetkus-8 plugs into a power socket and has nine terminals for connecting up to four low-power appliances equipped with 7/16 CEE Europlugs. Rozetkus-8 will not accommodate a microwave oven, an electric kettle or any other high power appliances.

Vspyshkus flash unit

Vspyshkus is a compact LED flash unit of the size of a credit card that can be used with any camera equipped with a hot shoe.

Vspyshkus employs thirty light emitting diodes covered with glossy plastic. Flash intensity is adjusted with a ring at the back of the flash unit. The folding part acts both like a hot shoe foot and a USB connector.

Vspyshkus is made of anodized aluminum — durable, light-weight, beautiful, nice-to-touch material.

Lentus clock

Lentus is a digital-mechanical clock where transparent strips with broken lines design rotate and overlap to form numerals. It takes 5 strips — three horizontal and two vertical — to build a digit.

Material: plastic with contrasting textures: glossy front and matte back
Dimensions:
12,7×26×8,2 cm (5"×10,2"×3,2")
www.artlebedev.com/everything/lentus

Segmentus clock

Segmentus clock has hands that form numbers like those on a digital display. It's time for true postmodernism.

Dimensions:

18,6×43×7,4 mm (7,3"×17"×3")

Material: plastic

Torbus bag

Torbus bag is designed large and wide, yet elegant and convenient. Everything you need can fit in it, no problem. Torbus is available in beige and black, graphic or no graphic.

The bag closes with a snap and has a zipper pocket inside for pens, documents, tickets and random loose items

Dimensions: 38×32 cm (15"×12,6")

Handles 75 cm (29,5")

Material: 65 % polyester, 35 % cotton

www.artlebedev.com/everything/torbus

Rozetkus-7 Bublikus power strip

Rozetkus-7 Bublikus is a compact and cheerful power strip for home and office. The name comes from *bublik* — a traditional Russian bread roll with a hole in the middle, much like a bagel.

Rozetkus-7 Bublikus can accommodate all low-power household appliances connected in any order: lights, chargers, hard drives, clocks and other devices with 4 mm ungrounded CEE 7/16 Europlugs.

Diameter: 19 cm (7,5")

Cord: 3 m (10 ft)

Max capacity: 10 plugs

Sputnikus office stool

Sputnikus stool is a must-have item to put beside every desk in an office where people visit each other's workplaces to discuss projects.

Sputnikus occupies little space, yet does a good job of inviting visitors to have a seat. The design is simple and steady. Sputnikus stools can be nicely stacked.

Dimensions:

46×50×30 cm (18"×19,7"×12")

Material: metal, Oxford PVC

Oktopus plunger

Oktopus toilet plunger is a perfect gift for your inner plumber. Its tentacle has a great grip, no kidding. The head's larger diameter translates into the plunger's higher efficiency and makes it suitable to unclog any household drains including the toilet.

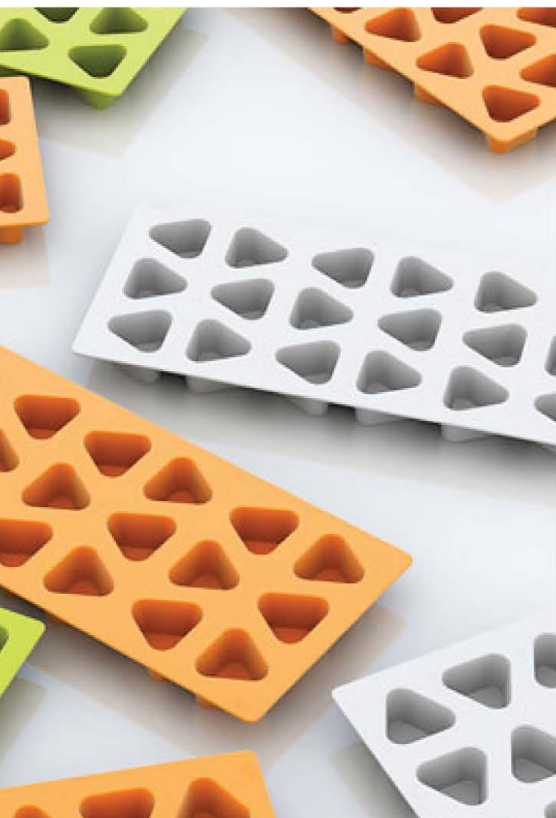

Tip to toe length: 44 cm (17,3")
Suction cup diameter: 13 cm (5,1")
Material: plastic, silicone

Our stores

We have nine stores in Moscow, Saint Petersburg and Kiev, and in other cities and countries we rely to our partners to distribute our products. The only requirement is being willing and able to sell our goods in the same way we sell them in our own stores. Experience in sales and business operations can help, and a start-up capital is a must.

We offer attractive wholesale prices to our partners and provide them with necessary technical assistance, information and moral support. We don't burden our partnership with formal licensing, although we expect our partners to have an honest and responsible work attitude.

Folding display stand for studio products

For our partners and wholesale customers with their own stores we produce universal ranges of store furniture for various purposes. Each range comes in four colors and there are numerous ways to combine the elements.

We also build light mobile counters that complement studio products. Made of thick cardboard, they have two shelves and hooks for hanging small goods. Stands can be quickly assembled and dismantled and are easy to store and transport.
